

TOOSPOINT CONSULTING

ENGAGEMENT PROPOSAL

ToosPoint Consulting × Vivified Solutions

Issued: **June 25, 2026**
Document Type: **Engagement Proposal**
Classification: **Confidential**

This **Engagement Proposal** (the “Proposal”) outlines the services, investment, structure, and first 30-day deliverables that **ToosPoint Consulting** proposes to provide to **Vivified Solutions** in support of its growth, partnership, and platform initiatives.

1. Engagement Summary

ToosPoint Consulting proposes a focused, hands-on engagement to help Vivified Solutions expand its top-of-funnel, win new direct clients in priority verticals, build out high-quality sales collateral, professionalize its RFP response capability, and identify the right cloud-based platform to scale service delivery.

Engagement Model:	Monthly retainer (consulting)
Investment:	\$4,500 USD / month
Time Commitment:	~10 hours / week
Billing:	Monthly invoice, Net 15
Term:	Month-to-month, 30-day notice
Effective Date:	July 1, 2026 (target)

2. Why ToosPoint

Vivified Solutions is at the stage where the next dollar of growth comes from disciplined outbound, strong written materials, and a few well-run RFPs — not from spreading attention across every possible channel. ToosPoint brings:

- **Direct industry relationships** across the LSP ecosystem that Sahar can activate in the first weeks to open partnership conversations that would otherwise take months of cold introduction
- **End-to-end sales execution** — from list-building and cold outreach through discovery, demo, proposal, and close — so internal leadership stays focused on delivery and product
- **RFP fluency** in regulated buyer verticals (medical, healthcare, education, government-adjacent) where Vivified’s service profile is a strong fit but the response motion is the main gating factor
- **A vendor-neutral lens** on cloud platform selection, with hands-on experience evaluating interpretation and language-services delivery platforms against feature coverage, TCO, and roadmap fit

3. Scope of Services

3.1 LSP Partnership Outreach

- Build a target list of Language Service Providers whose language mix, vertical exposure, and service profile complement Vivified's
- Lead outreach into those LSPs, with Sahar personally leveraging prior relationships and industry contacts to short-circuit the introduction cycle
- Drive partnership conversations through structure (rate cards, SLAs, technology integration, co-selling motions) and bring them to a signed working relationship
- Maintain a partnership pipeline with stage, owner, next step, and status visible to Vivified leadership

3.2 Direct Client Acquisition

- Build and continuously refine curated prospect lists in the priority verticals (medical, healthcare, education, and adjacent regulated buyers)
- Run targeted cold-calling and cold-emailing campaigns, with sequenced follow-up and disciplined response handling
- Own the sales cycle end-to-end — from first touch through discovery, qualification, demo coordination, proposal, and close — and document each opportunity in a shared pipeline
- Iterate on messaging, scripts, and cadences based on open / reply / meeting data, not guesswork

3.3 Sales Collateral & RFP Execution

- Create a Vivified-branded sales deck, capability statement, vertical one-pagers, case-study templates, and leave-behinds suitable for both outbound and finalist meetings
- Identify relevant RFPs, RFIs, and RFQs in target verticals and government / institutional channels, and bring a bid / no-bid recommendation to each
- Own the RFP lifecycle: intake, compliance matrix, written response, pricing input, internal review, and submission
- Prepare and rehearse finalist presentations, orals, and clarification responses

3.4 Cloud Platform Selection

- Work with the Vivified team to define functional, technical, security, and budget requirements for the target cloud-based delivery platform
- Run a structured market scan and short-list of candidate platforms; compare across feature coverage, total cost of ownership, integration footprint, and roadmap fit
- Coordinate demos, reference calls, pilot scoping, and commercial negotiation
- Deliver a recommendation memo and decision support for final selection

4. First 30-Day Deliverables

The first thirty days are structured around tangible artifacts and pipeline activity, not a long ramp:

Sales deck & materials	Vivified-branded deck, one-pagers, and supporting collateral completed and approved for outbound and RFP use
2+ RFP submissions	At least two qualifying RFPs prepared, reviewed, and submitted within the 30-day window
Target-account research	Working prospect list across medical, healthcare, and education, with contact data, qualification notes, and prioritization
Outreach kickoff	Active outbound to the qualified prospect list and to identified LSP partnership targets, with a live opportunity / partnership pipeline

5. Investment & Commercial Terms

- **Monthly retainer:** \$4,500 USD per calendar month, flat
- **Time commitment:** approximately 10 hours per calendar week, scheduled flexibly
- **Billing:** monthly invoice on or near the first business day of each month; payment Net 15 via wire transfer, Zelle, Venmo, or PayPal
- **No commission, revenue share, or success fee** is payable; compensation is strictly the monthly retainer
- **Unused hours** do not roll forward; sustained increases beyond the weekly commitment are discussed and agreed in writing and may result in an adjusted retainer

Advisory Capacity. All recommendations made by Consultant are advisory in nature. Final decision-making authority on all business, commercial, and operational matters rests with Vivified Solutions.

6. Term, Termination & Confidentiality

- Engagement runs on a **month-to-month** basis from the effective date, terminable by either party with **30 days written notice**
- Upon termination, Vivified pays Consultant the prorated portion of the monthly retainer through the effective termination date
- Both parties hold each other's confidential information (prospect lists, partner relationships, pricing, financials, strategy) in strict confidence, surviving termination for **three (3) years**

- Work product specifically prepared for Vivified — decks, RFP responses, prospect lists, and related materials — belongs to Vivified upon payment, while Consultant retains pre-existing methodologies, templates, and frameworks

7. Next Steps

1. Vivified Solutions reviews and confirms the scope, investment, and first 30-day deliverables described herein
2. Both parties countersign the accompanying Consulting Agreement
3. Kickoff session within the first business week of the effective date to align on prospect verticals, LSP partnership targets, and platform requirements

ACKNOWLEDGED & ACCEPTED

subject to execution of the accompanying Consulting Agreement.
